LIFE SIDE

Supporting policy makers with
the design and implementation
of the EU ETS

EU ETS

- The first and largest greenhouse gas emissions trading scheme in the world.
- A major pillar of the European Union climate policy.

Objectives

- Collect and disseminate information on the economic functioning of the EU ETS.
- Establish a network bringing together EU ETS experts.
- Create a forum enabling interaction amongst policy makers, stakeholders and EU ETS experts.

Activities

- Economic ex-post assessment of the EU ETS focusing on:
 - » Free allocation of emission allowances.
 - » Impact of the EU ETS on investment and innovation.
 - » Interaction between energy policies and the EU ETS.
 - » International dimension.
- Ad-hoc training courses and targeted events on the EU ETS for EU policy makers and stakeholders.
